

Science – Rocks and Fossils

St Francis RC Primary
School

Year 3 – Rocks and Fossils

Cross Curricular – The Stone Age

- Know that the property of soils is affected by types of rock, size of rock pieces, and organic matter.
- Know that fossils were formed millions of years ago.
- Know that there are different types of rock: sedimentary, igneous and metamorphic.
- Know how to describe rocks using language such as texture, layers grains

We investigate the following...

*IS THERE A PATTERN IN WHERE
WE FIND VOLCANOES ON PLANET
EARTH?*

*WHO WAS THE SCIENTIST MARY
ANNING AND WHAT DID SHE
DISCOVER?*

Key Vocabulary

- Rock
- fossil
- soil
- Sedimentary
- igneous
- metamorphic.
